

New Source Review newspaper advertisements for construction permit applications, February 22, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 3, April 4, or April 5, 2007. Public notices are generally published every two weeks. The previous publication of public notices was March 22 , 2007.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is DTR Tennessee, Inc. Tazewell with a mailing address of 150 Hester Lane, Tazewell, TN 37879. They seek to obtain an air contaminant permit (Division identification number: 13-0083-33/60779) for construction of an Adhesive Coating Operation located at 150 Hester Lane, Tazewell, Tennessee. This proposed operation would consist of an adhesive coating application via a hand spraying system with a forced-air steam-drying chamber. A regenerative thermal oxidizer would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Claiborne County "Claiborne Progress" – published once on or before Thursday, April 5, 2007.

The applicant is D&W Custom Cabinets with a mailing address of P.O. Box 494, Bean Station, TN 37708. This company seeks to obtain an air contaminant permit (Division identification number: 29-0043-01/60384) for a Wood Working Operation located at 204 Bowlin Drive, Bean Station, TN 37708. This existing operation consists of multiple wood working machines to manufacture cabinets. Cyclones are to be used for pollution control. This company also seeks to obtain an air contaminant permit (Division identification number: 29-0043-01/60384) for a Surface Coating Operation located at 204 Bowlin Drive, Bean Station, TN 37708. This existing operation consists of multiple wood coating operations for cabinets. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by these sources. Mr. Doug Warden is the assigned Division person.

For the Hamblen County "Citizen Tribune" – published once on or before Thursday, April 5, 2007.

The applicant is New England Classic Inc. with a mailing address of 1625 North Grundy Quarles Highway, Gainesboro, TN 38562. They seek to obtain an air contaminant permit (Division identification number: 44-0039-01/60755) for a Surface Coating Operation located at the same address. This existing operation consists of two spray booths and associated equipment used to coat wood. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the “Jackson County Sentinel” – published once on or before Thursday, April 5, 2007.

The applicant is Atlanta Coast Plating, Inc. with a mailing address of 2803 Northridge Drive, Athens, TN 37303. They seek to obtain an air contaminant permit (Division identification number: 54-0193-01/60737) for construction of a Chrome Plating Operation at 2803 Northridge Drive, Athens, TN 37303. This proposed operation would consist of a vertical 3-stage composite mesh pad chrome separator, inline mist eliminator, 2 acid tanks, and associated equipment used to customize components with chrome plating. A 6500 CFM ventilation system would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the McMinn County “Daily Post-Athenian” – published once on or before Thursday, April 5, 2007.

The applicant is Turner Pet Cremations with a mailing address of 690 Boone Lane, Jackson, TN 38301. They seek to obtain an air contaminant permit (Division identification number: 57-0296-02/60733) for construction of a Liquefied Petroleum Gas Incinerator at the same address. This proposed operation would consist of a cremator and associated equipment used to incinerate agricultural waste. LP gas would be used for fuel. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Madison County “Jackson Sun” – published once on or before Thursday, April 5, 2007.

The applicant is Knox Energy, LLC with a mailing address of 132 Mitchell Road, Oak Ridge, TN 37830. They seek to obtain air contaminant permits for construction/modification of air contaminant sources approximately 5 miles on 116 N from Petros, TN; as follows:

(1) Natural Gas Dehydration Unit (Division identification number: 65-0047-02/60797). This existing operation consists of a 0.25 million BTU per hour natural gas-fired burner used to remove water from natural gas before it is transported. The proposed modification is to increase the amount of natural gas processed per day. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no construction. Regulated air contaminants emitted by this source would increase slightly.

(2) Natural Gas Compressor Driver (Division identification number: 65-0047-05/60798). This proposed operation would consist of a 1340 horsepower natural gas-fired engine used to compress natural gas for transport. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Aslinger is the assigned Division person.

For the “Morgan County News” – published once on or before Thursday, April 5, 2007.

The applicant is Sequatchie Concrete Service with a mailing address of P.O. Box 129, South Pittsburg, TN 37380. They seek to obtain an air contaminant permit (Division identification number 71-0300-01/60778) to construct a Concrete Batch Plant operation at 367 Main Street, Cookeville, TN 38506. This proposed operation would consist of a weigh batcher, cement silo, sand and gravel stockpiles, and associated equipment to produce ready mix concrete. A fabric (dust) collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen" – published once on or before Thursday, April 5, 2007.

FIRST APPLICANT: The applicant is Tennessee Ready Mix, LLC with a mailing address of 155 Briley Lane, Portland, TN 37148. They seek to obtain an air contaminant permit (Division identification number 75-0604-01/60714) for the construction of a Concrete Batch Plant Operation located on Highway 96 West, Murfreesboro, TN 37128. This proposed operation consists of a concrete weigh-batcher, cement silo, crushed limestone aggregate/sand stockpiles, and associated equipment used to produce ready mix concrete. A baghouse would be used to for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

SECOND APPLICANT: The applicant is Starbucks Coffee Company with a mailing address of 2401 Utah Ave. So. Suite 800, Seattle, WA 98135-1435. They seek to obtain an air contaminant permit (Division identification number: 75-0606-01/960761) for construction of a Coffee Bean Roasting Facility located on I-24E & Joe B. Jackson Pky, Murfreesboro, TN 37127. This proposed operation would consist of 6 coffee bean natural gas-fired roasters, 6 cooling trays, conveyers, and associated equipment to roast, cool, package, and label coffee beans for distribution. Natural gas and No. 2 fuel oil would be used for fuel. Baghouses, cyclones, and catalytic oxidizers would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the Rutherford County "Daily News Journal" – published once on or before April 5, 2007.

The applicant is Elegant Cleaners with a mailing address of 2025 Mallory Lane, Franklin, TN 37067. They seek to obtain an air contaminant permit (Division identification number: 94-0229-01/60764) for a Dry Cleaning Facility located at the same address. This existing operation consists of a dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Collins is the assigned Division person.

For the Williamson County "Williamson AM" – published once on or before Thursday, April 5, 2007.

The applicant is Jones Brothers, LLC with a mailing address of P.O. Box 727, Mt. Juliet, TN 37121. They seek to obtain an air contaminant permit (Division identification number 94-0292-01/60792) for the installation of a Rock Crushing Operation located at 1046 Britain Lane, Nolensville, TN 37135. This proposed operation consists of rock crushers, screen, conveyors, aggregate stockpiles and associated equipment to produce crushed limestone aggregate. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Williamson County "Williamson AM" – published once on or before April 5, 2007.
